

Will the broadcast flag interfere with consumers ability to make copies of DTV content for their personal use, either on personal video recorders or removable media?

see below

Would the digital flag interfere with consumers ability to send DTV content across networks, such as home digital networks connecting digital set top boxes, digital recorders, digital servers and digital display devices?

see below

Would the broadcast flag requirement limit consumers ability to use their existing electronic equipment (equipment not built to look for the flag) or make it difficult to use older components with new equipment that is compliant with the broadcast flag standard?

see below

Would a broadcast flag requirement limit the development of future equipment providing consumers with new options?

see below

What will be the cost impact, if any, that a broadcast flag requirement would have on consumer electronics equipment?

see below

Other Comments:

The airwaves belong to the people, not to Hollywood, nor to private interests. The fundamental issue is not what is limited by the broadcast flag requirement because democracy requires that this fundamental principle be maintained.
